Fees

Application Fee: \$2,000

All application fees must be paid at time of application submittal. Notification and publication fees for required public hearing notices (individual notices mailed to property owners - \$2 per notice; 14-day publication of legal notice in local newspaper – cost of notice) will be billed to the applicant. Notification and publication fees must be paid within 15 days of billing.

Please note regarding fees: The payment of fees and/or the acceptance of such fees by County Staff does not constitute any sort of approvals, vesting, or signify that the application is complete or appropriate in any manner. The collection of fees is simply a requirement to begin the review process that will ultimately make such determinations.

Owner's Acknowledgement

I hereby declare under penalty of perjury that this application form and all information submitted as part of this application form is true, complete, and accurate to the best of my knowledge. Should any information or representation submitted in connection with this application form be incorrect or untrue, I understand that Summit County may rescind any approval or sufficiency determination or take other appropriate action.

Owner's Signature / Date

Submittal Requirements

Additional details may be needed to ensure staff have sufficient information for analysis. All information submitted will be available for public review.

-
- Site Design Narrative – written explanation of how the project addresses the Master Planned Development design questions (see attached pages)
 - Written description of the proposed rezone, including the reason for the proposed request
 - Applicable development permit and associated fees: an application for a rezone will only be considered when accompanied by an applicable development proposal

Master Planned Development Site Design Narrative

1. How does the proposed development interconnect with the surrounding properties, neighborhood, and area – including, but not limited to:
 - * Where will vehicles enter and exit the site?
 - * Where will new streets be developed?
 - * How will pedestrian and bicycle routes (including commuter pathways, trails, and sidewalks) be provided through the project area?

2. Is the location of the proposed development within reasonable proximity (including walking and biking) to community facilities such as schools, retail centers, parks, etc.?

3. How does the proposed development advance the community need for a mix of housing types and affordability?

4. What are the design character objectives for the built environment, including buildings and the public spaces that connect them? How do these design objectives address the local context, climate, and/or community needs?

5. How is the proposed development designed to take advantage of the existing topography, landscape features, trees, wildlife corridors, existing structures, minimize site grading, etc.?

6. How is the proposed development street/circulation system designed to accommodate a variety of transportation modes (where appropriate), easy route finding, and safe speeds?

7. How does the proposed development balance the need for parking with the need to design parking areas in a manner that minimizes visibility, site grading, stormwater runoff, and exterior lighting?

8. What are the proposed development's need(s) for outdoor space, open space, habitat/wildlife areas, parks, or outdoor amenity areas? How does the proposed development address these needs?

9. How does the proposed project address needs for recycling, garbage collection, above ground utility equipment, mail facilities, service and delivery areas, equipment storage, etc.?

10. How does the building/buildings within the development provide good quality internal and external environments for their users, promoting health and welfare? How does the building/buildings relate positively to the private, shared, and public spaces in the area?
