CONTROL PROGRAM

The control program must describe the complete treatment including re-treatment plans for each specific noxious weed species for the next 3 years. Developer/Landowner is responsible to set up inspections with the Weed Supervisor. The property must be inspected each year. If the inspection of the property is not completed each year one year will be added to the end of the term.

A. Specific noxious weed species of concern associated with proposed project site.

B. Proposed method of control (or combination of methods) you intend to use to control specific noxious weeds.

1. Chemical (herbicide to be used)

2. Mechanical (tilling, digging, grubbing, burning, etc.)

3. Biological (insects or animal released on site)

C. Timing for control methods (treatment before flowering).

1. Time of year for treatment/application prior to commencement of site development.

2. Time of year for monthly follow-up examination, detection, and treatment/application.

D. Prevention

1. Weed free certification for seed (contact USU extension for a specific seed mix).

2. Storage of topsoil, fill and gravel (on site or off site).

3. Method proposed to maintain weed free perimeter to prevent off site infestation.

4. Method proposed for early detection of new growth for treatment or re-treatment of site.

The Utah Noxious Weed Act (Title 4, Chapter 17, Rule R68-09) provides for the control and management of noxious weeds in Utah. Private property owners, municipalities, and state agencies are subject to the provisions of the Utah Noxious Weed Act. This act requires all landowners or people in possession of property be responsible for the control of noxious weeds on that property.
